

The Reboot TEN to Fix Britain

Reboot

www.rebootgb.today

1

A PROGRESSIVE ALLIANCE GOVERNMENT

A new government of all the talents based on ethics and expertise and drawn across Party lines.

2

SCIENCE-BASED PANDEMIC RESPONSE

We need a science-based approach to create a zero-Covid public health policy. Science to be free from political interference and open to all to understand the advice given.

3

A BASIC INCOME FOR ALL

Minimum financial security for all will end the pandemic faster and help people get back on their feet and into jobs. A Green & people-centred economics is our goal.

4

SCIENCE-BASED CLIMATE CHANGE APPROACH

The highest priority is protecting lives and global health. We need a Green Deal to deliver substantial change and lower carbon in our lives.

5

NATIONAL HEALTH & CARE SYSTEMS

We need joined-up systems that offer dignity and timely access to care for us all, free at the point of use.

6

CITIZEN-LED CONSTITUTIONAL REFORM

Our constitution isn't working, our votes don't matter and our people are disengaged from politics. To change that is urgent - we need a new PR voting system & a rebalanced union.

7

REAL HISTORY & POLITICAL EDUCATION

We need to know how this nation was created. We need to understand our place in the world. Political education for all.

8

STRONG RELATIONSHIP WITH THE EU

The EU is not the source of problems in this country. We need to rebuild a healthy relationship with the neighbours to benefit citizens and the economy. This will open up a pathway to rejoin when there is a majority in favour. Right now we have to Fix Britain to have any chance of making that a possibility.

9

MEDIA & ELECTORAL LAW REFORM

Democracy needs a functioning, fair press and it needs rules of engagement for everyone operating in politics.

10

ENDING CORRUPTION

Bringing back integrity to public life is vital. That means better, more open procurement, appointments and strategic planning management - not fantasy bridges and tunnels or contracts for cronies.
